

The Blurb

Volume 51 Number 11

Public Service Since 1949

November 2001

HAPPY THANKSGIVING TO ALL!
AND
SEMPER FI!

The Blurb is published monthly by, and for, the members of **The PHIL-MONT MOBILE RADIO CLUB, INC.** whose purpose is to promote Amateur Radio in general, and Mobile Radio in particular. Copying and quoting is permitted with a credit line. We gladly exchange publications with other amateur radio clubs. Requests should be sent to the Editor. Subscriptions are available to non-members for \$10, addressed to the Treasurer. The club meets at 7:30 PM on the *second* non-holiday Wednesday of every month at **The Franklin Institute Science Museum**, Benjamin Franklin Parkway at 20th Street, Philadelphia. Enter from Winter Street or the parking garage on 21st street. **ALL VISITORS ARE WELCOME!**
Amateur Radio License Examinations are held on the *first* non-holiday Thursday of every month at The Franklin Institute Science Museum—registration finishes at 6 p.m. doors close at 6:30 PM-*SHARP!*

Net Schedule

Thursday CW Practice Net at 20:00— 147.030MHz FM (NOT DURING JUNE, JULY AND AUGUST)

Sunday morning 2 Meter Net at 09:30 — 147.030 Mhz FM

Sunday morning “10-on-10” Net at 10:00 — 28.393 Mhz SSB (+ or - for QRM)

Sunday morning 75 meter Net at 10:20 — 3.993 MHzSSB

191th Monthly Phil-Mont VE Test Session Statistics for October 2001

THREE (3) candidates took four (4) elements. We had one (1) upgrade and one (1) new candidate.

The VE team was chaired by Dusty Rhoads (ND3Q).

Members are: Jim McCloskey, NS3K; Carol Hutkin, K2BL; and Jeff Kerber, N3VE; Bob Freer, W3YLT and Roger Shannon, KB3CYB.

Exam Dates for the year 2001:

November, 1; December, 6;

January 3, 2002

VE Examination Sites

Confirm all information, in advance, with the contact person. Licensed applicants must bring the original, and one photocopy of their license. All applicants, including children, must show two other types of ID. Bring the original, and a copy of any Certificate of Successful Completion needed to prove current status. The ARRL VEC's 2001 test fee is \$10.00.

THE FRANKLIN INSTITUTE

Monthly, 1st Thursday — Dusty Rhoads, ND3Q. 215-879-0505, day. 215-448-1139 24-hours. Doors open at 6PM and close sharply at 6:30 PM.

BELLMAWR, NEW JERSEY

Diane Nafis, 856-227-6281. Testing is the third Thursday of the month at 6:30 PM. They meet at the Bellmawr Municipal Complex, Browning Rd. and Lewis Ave., one block off Black Horse Pike, Route 168.

DX news

This week's bulletin was made possible with information provided by Tedd, KB8NW, the OPDX Bulletin, KK9A, KW4DA, WA7BNM, QRZ DX, 425DXnews, The Daily DX, DXNL and Contest Corral from QST. Thanks to all. **MAURITIUS, 3B.** Jose, ON4LAC, is QRV as 3B8/ON4LAC until December 6 using mostly SSB, but also RTTY and Pactor. QSL to home call.

UNTAET, 4W. Carlos, CU3FT is QRV as 4W/CU3FT on all bands, especially the newer ones and 6 meters. QSL via CT1EEB.

BHUTAN, A5. Look for A52DA to be QRV from October 23 to November 1 on all bands using CW, SSB, RTTY, SSTV and PSK31. This operation includes an entry in the CQ WW SSB Contest as A50A. QSL via KW4DA.

BAHAMAS, C6. Ernie, W5OXA, Randy, W5UE, Alan, N5PA, Stan, K5NY and Bernie, KK5EW will be active from Abaco Island, IOTA NA-080, from October 22 to 29 as homecall/C6A on all bands, using CW, SSB and possibly RTTY. QSL to home calls.

IRAN, EP. EP3PTT has been QRV on 15 meters using SSB and RTTY around 1230 to 1630z.

MARQUESAS ISLANDS, FO. SP9FIH and SQ9LR will be QRV as FO/SP9FIH from October 24 to November 10. Activity will be on 80 to 6 meters using SSB. QSL via SP9FIH.

DOMINICA, J7. Look for J75WX, J79WB, J79DA, J79LR and J79AA to be QRV from October 23 to 30. Activity will be on all HF bands, including 6 meters, using CW, SSB, RTTY, PSK31 and Feld-Hell. QSL via operators' instructions.

MONGOLIA, JT. Enk, JT1DA, is usually QRV on 12 meters between 0000 and 0100z.

ARUBA, P4. John, KK9A, will be QRV as P40A using CW and SSB from October 20 to 30. This includes an entry in the CQ WW SSB Contest. QSL via WD9DZV.

GREECE, SV. A group of Greek amateurs will participate in the Jamboree On The Air as J41NIK. Look for activity on 80 to 10 meters using SSB and PSK31.

QSL via SV1HR.

PALAU, T8. Lee, HL1IWD, will be QRV as T88YB from October 24 to 28 and plans to be active on 20 meters using CW in his spare time. QSL to home call.

KAZAKHSTAN, UN. Andy, UN7QX, has been QRV on 17 meters around 0215z, 15 meters around 0400z and 10 meters around 0900z.

ST. KITTS AND NEVIS, V4. Sam, G4OHX is active as V47OHX until October 24. QSL to home call.

MICRONESIA, V6. Look for JE1LES to be QRV as V63HJ from October 22 to 28. Activity will be on 20 to 6 meters using CW, SSB, RTTY, SSTV and PSK31. QSL to home call.

NORTH COOK ISLANDS, ZK1. ZK1AKX, ZK1APM, ZK1ASQ, ZK1VTV, ZK1CG and ZK1CY are active from Manihiki, IOTA OC-014. QSL via operators' instructions.

BATTLE LOOMS OVER PART 15 ACCESS TO 425-435 MHZ

The FCC has proposed changes to its Part 15 rules governing unlicensed devices that would allow operation of advanced RF identification devices between 425 and 435 MHz. By going along with a request made earlier this year by SAVI Technology Inc and fiercely opposed by ARRL, the FCC has set the stage for another battle between amateur and commercial interests. "The FCC hasn't thought this through," said ARRL Executive Vice President David Sumner, K1ZZ. He contends that the Part 15 RFID proposal—included this week as part of a larger Notice of Proposed Rule Making and Order—is "contrary to the whole philosophy of the Part 15 rules." Sumner said the RFID devices SAVI proposes more properly belong on frequencies that are also authorized for use by devices regulated by FCC's Part 18 Industrial, Scientific and Medical (ISM) rules. The FCC said this week's NPRM&O would modify the rules for RFID systems "to harmonize our rules with those in other parts of the world and to allow for improved operation."

Sumner said that 433.9 MHz is allocated for ISM devices in 10 European countries but not in the rest of the world, including ITU Region 2 (North and South America). Last March, the ARRL urged the FCC to deny or dismiss SAVI Technology's petition. The League argued that the field strengths and duty cycles SAVI proposed for its RFID tags were unreasonable "and would undoubtedly seriously disrupt amateur communications in one of the most popular of the Amateur Service allocations." SAVI, which markets radiolocation and wireless inventory control products, told the FCC it needed the rules changes to satisfy customer demand for increased RFID system capabilities. The FCC this week said it agreed with SAVI that changes to its Part 15 rules to allow more advanced RFID systems in the 433 MHz band "would serve the public interest." It proposed to create a new section to Part 15 that would allow operation of RFIDs in the 425-435 MHz band and transmissions of up to two minutes at maximum field strengths now only permitted for extremely short-duration, intermittent control signals. In an apparent about face, the FCC said it believes the proposed levels would offer only minimal interference potential for licensed users. The FCC in the past has acknowledged serious interference potential and has prohibited data transmission, among other things, at the proposed field strengths for that very reason. As proposed, transmissions of 120 seconds would be permitted with just a 10-second silent period between transmissions. Under Section 15.231(e) periodic radiators are permitted field strengths of less than 5000 uV/m at 433 MHz measured at three meters, with duty cycles of less than one second and a silent period between transmissions that's at least 30 times the duration of the transmission. The League pointed out in its earlier comments that the Communications Act of 1934 lacks authority to allow unlicensed devices with substantial interference potential. "Such devices must be licensed," the ARRL concluded. Unlicensed Part 15 devices must not interfere with licensed services and must tolerate interference received from licensed

Trustee: Steve Hoch, WU3I

The International Voice of The Franklin Institute Science Museum

Hello Fellow Members, Well another month has passed and things are working at our station. Jim, W3BBB and I made what we thought were repairs to the keybox the night of the meeting, but alas that lasted only 6 days. However, I have returned and made permanant repairs (no it is not removed form the wall and everybody does not get a key) to the solenoid and latch assembly and all is working again.

I have not received word on the Camp-In dates. If anyone gets this information please forward it to me.

I have no new news on our Kenwood TS570SSAT. I have not heard from Byron in California but will try e-mailing him again. See you at the General Meeting.
Steve, WU3I

The PREZ SEZ

We now face the challenge of a major World Radiocommunication Conference in 2003. Expected to take place in Venezuela, WRC-03 is scheduled to begin June 9, 2003, and continue until July 4, 2003.

WRC-03 will deal with wide-ranging telecommunications issues, including IMT-2000 or so-called "third-generation" or "3G" cellular telephone devices, fixed services, mobile and fixed-satellite issues, HF broadcasting, satellite broadcasting, and regulatory matters.

Amateur Radio-related issues on the WRC-03 agenda include the revision of Article S25 of the international Radio Regulations—the basic rules for the Amateur and Amateur-Satellite services. This includes the issue of whether to retain the treaty requirement to demonstrate Morse code proficiency for access to amateur bands below 30 MHz. WRC-03 will consider realignment of amateur and broadcasting bands around 7 MHz on a worldwide basis. The long-standing problem was identified in a WARC-92 recommendation that called for realignment at a future conference. The International Amateur Radio Union is committed to supporting a "harmonized" worldwide 300-kHz allocation in the vicinity of 7

MHz.

A WRC-03 Web site has been set up at <http://www.fcc.gov/wrc-03>

We've been successful before. In 1996 we faced a major threat to the two-meter band from the proponents of so-called "little LEOs"—low Earth-orbit satellites delivering low-speed data services. With the strong support of ARRL members we met that challenge. Today the little LEOs are less of a threat to the Amateur Service, thanks to efforts of Hams world-wide.

Vital work in preparation for WRC-03 will take place in the coming year. The ARRL is creating the 2002 Fund for the Defense of Amateur Radio Frequencies (<https://www.arrl.org/forms/fdefense/>). This will help give the ARRL, the resources they need to represent you in Washington and at the WRC. Your support will give them the financial strength that is needed to deliver our message to those who are preparing for WRC-03 both here and abroad.

ISS CREW CHIEF MAY BE ON THE AIR FOR JOTA

International Space Station Expedition 3 Crew Commander Frank Culbertson, KD5OPQ, says he hopes to be on the air October 20-21 from NA1SS during

Upcoming Public Service Events

Brian's Run

December 2

Fcc continued from page 4

radio services in the same band. Another portion of the proceeding involves the 13.56 MHz ISM frequency. Sumner said that proposal "at first glance" might permit increased emissions in the bottom 10 kHz of the 20-meter amateur band. Sumner said the ARRL would take a closer look at this section of the overall proposal before assessing its interference potential. Sumner said the League plans to file a strong opposition to the FCC's NPRM&O. The entire Notice of Proposed Rule Making and Order in ET Docket 01-278 (which incorporates RM-9375 and RM-10051) is available on the ARRL Web site.

Scouting's annual Jamboree On The Air. Stations not participating in JOTA are requested to give preference to Scouting/JOTA stations attempting to contact NA1SS. "The ISS crew is very busy but excited about supporting JOTA QSOs," said Will Marchant, KC6ROL, of the Amateur Radio on the International Space Station program. "Frank had packed his Scouting T-shirt and will be wearing that during the QSOs." Culbertson will use the general QSO voice frequencies: In Regions 2 and 3 (this includes the US), the frequencies are 144.490 MHz up and 145.800 MHz down; in Re-

(thanks to W3CH)

gion 1 (Europe, Africa and the Middle East), the frequencies are 145.200 MHz up and 145.800 MHz down. See the ARRL Web site, <<http://www.arrl.org/news/stories/2001/10/16/1/>>, for approximate pass times. Marchant advised stations to always listen before transmitting and to wait until NA1SS calls for the next station before transmitting. If NA1SS comes back to someone else, stop calling and wait until that contact is completed before trying again. He also says Culbertson hopes to be able to find more time for casual ham radio contacts in the days and weeks ahead. During JOTA, Amateur Radio operators around the world invite Boy Scouts and Girl Scouts/Guides to their stations to chat with each other and to learn about Amateur Radio at the same time. Details are spelled out in the September 2001 issue of QST (see page 48) and on the ARRL Web JOTA page <<http://www.arrl.org/FandES/ead/jota.html>>.

Scholarship-Program

WHEREAS, the directors of the Phil-Mont Mobile Radio Club, Inc. have recognized that the award of grants in scholarship aid to qualifying young amateurs pursuing higher education not only helps the recipients to meet the ever-increasing costs of a college education, but also fosters interest in our hobby by young people, and provides a vehicle for promotion of our club to younger prospective members. And, further, such scholarships provide most appropriate "living gifts" to honor or memorialize, on a one-time or annual basis, those amateurs who have made significant contributions to amateur radio and to the Phil-Mont Mobile Radio Club.

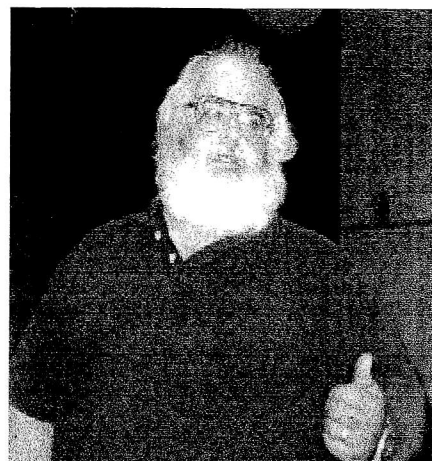

AND, WHEREAS, the directors, on September 5, 2001, unanimously, approved the establishment by Phil-Mont of a Scholarship Program to underwrite grants in scholarship aid to be administered by the Scholarship Committee of the Foundation for Amateur Radio, Inc., both Phil-Mont and F.A.R. being organizations recognized under Section 501(c)(3) of the Internal Revenue Code.

NOW, THEREFORE, it is resolved that the first such scholarship award by Phil-Mont shall be established and known as the Claude H. Haring, Jr., W3IIM, Memorial Scholarship. This annual scholarship, to be administered by F.A.R. and first awarded in 2002, shall pay \$2,000, and shall be available to residents of the Eastern Pennsylvania and Southern New Jersey ARRL Sections holding any class of amateur radio license, and enrolled in a U.S. college or university pursuing at least a bachelor's degree in any course of study. Funds to underwrite this scholarship shall be derived from contributions specified for the purpose received from members and friends, and from the income and principal of a general scholarship fund hereby established by Phil-Mont to fund this Haring Memorial Scholarship and other such scholarships as the board may from time-to-time authorize.

MEMORIALS THAT 'KEEP ON GIVING'.

At the Phil-Mont board meeting on September 5th., Mike, N3MT, and Dick, W3RM, proposed that PMRC establish sponsorship of one or more annual scholarship grants to qualified amateur radio operators who are enrolled as students in accredited colleges or universities pursuing a higher education. Mike, our 'youth' director, expressed how much the ham scholarship help he has received in each of the last three years has meant to him. "Not only has the money been a big help in meeting my expenses at Villanova University, but the scholarship awards keep on giving through the pride and encouragement I feel in receiving this honor from fellow hams, in living memory of former hams who contributed so much to our hobby." Just two days after the board unanimously adopted the scholarship program idea, we received the sad news of the death of Jack Haring, W3IIM. By telephone contact, the directors quickly determined—with the enthusiastic approval and support of Jinny, W3IIN, Jack's widow—that the first Phil-Mont scholarship should be established immediately in Jack's memory, as the "Claude H. Haring, Jr., W3IIM, Memorial Scholarship." W3RM, who had already been in contact with Hugh Turnbull, W3ABC, chairman of the scholarship committee of the Foundation for Amateur Radio, Inc., arranged for F.A.R. to add our new scholarship to the approximately 70 other such grants which they administer each year for ham clubs and individual sponsors across the country. F.A.R., which represents 55 member clubs, mainly located in the DC, MD, and VA area, has generously agreed to administer our scholarship(s) without charge. By formal resolution adopted by our board on October 10, we established a Scholarship Fund, and authorized the first annual award, in 2002, of the "Claude H. Haring, Jr., W3IIM, Memorial Scholarship," which will pay \$2,000. Inasmuch as Phil-Mont is recognized by the IRS as a 501(c)(3) charitable organization, all contributions to the Haring Scholarship spe-

cifically, and to the PMRC Scholarship Fund, are deductible by the donor for federal income tax purposes. Contributions made payable to PMRC, Inc., and designated for the Scholarship Fund, may be sent directly to our treasurer, K2BN, whose address is in the Blurb. Salable ham equipment can also be contributed, and the sale value will be treated as a deductible contribution. Every contribution will be acknowledged by an "IRS letter" for tax accounting purposes. Funds for the Haring Scholarship, to be first awarded in 2002, must be transferred from Phil-Mont to F.A.R. at the end of December, 2001. Dick, W3RM, has volunteered to serve as our scholarship coordinator with the F.A.R. Contact him for answers to any questions, from members and friends of Phil-Mont, concerning the scholarship program. Students interested in applying for a ham radio scholarship can write to F.A.R. Scholarships, PO. Box 831, Riverdale, MD 20738. Complete information regarding the available scholarships, eligibility rules and application forms, will be mailed in return. The final date to request forms is May 1, 2002; and completed applications must be filed by June 1, 2002.

Nick Tenaglia, N3IO put on our program about IRLP at the October General Meeting. It was well received by everyone.

Secretary, Fred Rice WA3KIO

10-10-01 Philmont Board Of Director's Meeting

The meeting was held at W3AA. In attendance were Bill W3AOK, Steve WU3I, Dick W3RM, Mike N3MT, Jim W3BBB, Gene N3XKE, Fred WA3KIO, and Ted KB3CYE.

Bill, W3AOK called the meeting to order. Bill stated that we needed an election committee. Gene, N3XKE offered to head it. Next meeting will be held at the home of Steve, WU3I and Joanne, N3FTC.

Jim, W3BBB stated that the coax is in. There will be impending work on the repeater with a different courtesy tone. Other than that, it should be transparent.

Steve, WU3I sold all but two pieces at the Trenton hamfest with the money going to Philmont.

Dick, W3RM reported that Rick, N3DHI had the club archives from Ginny, W3IIN and Steve, WU3I will be storing them.

Dick spoke with Ginny about establishing a scholarship in memory of Jack, W3IIM.

FAR will administer it without any cost to Philmont. Dick will be meeting with Ginny to get it set up. It will be open to residents in the Eastern Pennsylvania and Southern New Jersey ARRL sections, holding any class of amateur license and enrolled in a college or university pursuing at least a bachelor's degree in any course of study. The resolution passed unanimously. The meeting was adjourned around 7:25pm.

73 de WA3KIO

10/10/01 Philmont General Meeting

Charlye, K3CJ, welcoming committee, reported 23 people attending.

Steve, WU3I said that the key box at W3AA is fixed. Everything was sold at the Trenton hamfest except for the Drake R8 receiver and the Kenwood TS450.

Bill, W3AOK announced it's election time and that Gene N3XKE will head the election committee. Anyone interested in running is to see Gene.

Dick, W3RM spoke about the scholarship planned by Philmont and read the resolution that was approved by the directors. A copy of the resolution will be in the Blurb.

The meeting was adjourned and turned over to our guest speaker, Nick Tenaglia, N3IO who gave a talk and demonstration on IRLP.
